

Market Study and Revenue Assumptions

Rivergate Innovation District - Synthetic Agir V5 Test Fixture 3 - Confidential Draft

Market Rent and Occupancy Conclusions

The market study supports the following rent, occupancy, and growth assumptions for the Rivergate Innovation District.

Component	Units / SF	Market Rent	Stabilized Occupancy
Residential	620 units	\$3,850 per unit per month	95.00%
Retail	36,000 SF	\$68/SF	92.00%
Office	120,000 SF	\$55/SF	90.00%

Other Income and Growth

Parking, storage, signage, and amenity income are expected to contribute other income of \$1.9 million annually at stabilization.

Annual rent growth is projected at 3.25% after stabilization.

The market study's operating expense ratio benchmark is 32.00% of effective gross income. This is a market benchmark and conflicts with the appraisal and lender underwriting standards.

Demand Notes

The residential program benefits from proximity to the transit station and waterfront employment node. Office absorption is expected to be phased over the first two years following delivery.
